"I want every woman to get out her handkerchief and I want all you soldiers and you soldiers' sons take off your hats and get ready to give three cheers. Now, then, begin," he says, setting the example himself.

In two days' traveling through the State no such cheers were heard as those given to-day at Anderson. General Sickles was also greatly impressed with the size of the crowd, its inense enthusiasm and the fevor with which responded to appeals to its patriotism. He said the people of Anderson must get up very early to have so great a crowd at such an hour and declared that he was glad to see Indiana so wide awake.

THRONG AT MARION.

All-Day Demonstration and an Unlimited Flow of Enthusiasm

The all-day demonstration at Marion, including the ovation to the generals, speechmaking by other popular speakers in the afternoon and a street parade at night, was arranged for by the Marion McKinley Club, together with the soldier organizations and the G. A. R. Judge R. T. St. John headed the following committee, which met General Alger and his party at Anderson: James Charles, A. E. Steel, C. J. Bockus, John Watts and J. H. Miller. When the train slowed down almost the entire surface of the lot was covered with people, packed as close together as they could stand, while the high ground between the tracks and the fence, a strip fifteen feet wide, was covered for a distance of a block. AT HARTFORD CITY.

Another All-Day Demonstration and Enormous Crowd.

Hartford City was another place where an all-day demonstration was celebrated, under the management of the McKinley Club. Large delegations from Dunkirk, Eaton, Redkey, Camden, Montpeller and Upland arrived early in the day and took part in the street parade. To escort the Alger party J. A. Bonham, John Cantwell James J. Maddox, B. G. Shinn, E. D. Moffett, J. A. Painter. Ezra Stahl, Alexander Gable, A. W. Tracy and James Clifton boarded the special at Marion. For the afternoon speeches Smiley N. Chambers and D. W. Howe, of this city, accompanied the Alger party to Hartford City. It had been arranged to have the speeches made from an open wagon, which stood beside the track, but it was so thickly surround-ed by the crowds that it could not be got into place and the flatcar was again resorted to. The place selected was a little inconvenient, as there was not enough open space to accommodate the crowds and the meeting was interrupted by the passage of a regular passenger train. Scores of men were standing on five or six box cars that stood on a siding, while about four thou-sand more were crowded into the space before the speakers. The train was due at Hartford City at about 1:19 o'clock, but did not arrive until 2 o'clock, but the crowd as at Marion, there were large numbers of farmers. Many of them were standing in their wagons. Short speeches were made by Generals Alger, Howard, Marden, Sickles and Corporal Tanner.

The train was due at Muncie at 2:30, but was an hour late, and many of the people who had participated in the street parade and the demonstrations of early morning had left, but thousands were still in the streets, cheering enthusiastically as the party was driven from the station to the courthouse, where the speaking took place. It is estimated that the crowd numbered from 10,000 to 15,000 people. A great street parade, with several thousand people in line, and that was nearly two miles long, marched to Heekin park, where an address was made by E. S. Elliot. The courthouse yard proved too small to accommodate the immense crowd and many eople who wanted to hear the noted speakers were disappointed. But a crowd numbering about 5,000 gathered and lisspeeches from Generals Alger, cort of 300 old soldiers, who marched in the railroad company charged \$150 successful meetings of the day was held at night, when Judge Kenworthy, Iowa, made an address. Another Fleeing for His Life, Pursued by a Posse and Bloodhounds

-Sensational Tragedies.

COLUMBUS, Ga., Oct. 14.-Three men are dead and two seriously wounded as the result of a sensational tragedy which shook Columbus to its foundation to-day. One of the dead is J. A. White, who was the cause of the whole trouble. White and his nineteen-year-old son murdered in cold blood two policemen and wounded two other men who were in the party attempting to arrest them. The murdered officers are Rich-

ard M. Adams and William Jackson. White was formerly a policeman, but for several years has been in the shoe business. He has been considered eccentric, but not crazy. To-day he became involved in a quarrel in a barroom, and Adams and Mayfield served him with a summons to answer a charge of disorderly conduct. This maddened White, who made threats against the officers. He went home, got his Winchester and bought a supply of cartridges. He was joined by his son, who was also armed. They went to a barroom, and going out from there encountered the officers.

Then Jackson fell, begging the Whites to stop Jackson fell, begging the Whites to stop manufacturing and give work to American firing. The father stood over him, firing workingmen. That is the policy of the Reinto his prostrate body.

The news of the affair created intense ex-

citement. Policeman Roberts went to White's house, knocked, was asked in, and as prosperity than we ever enjoyed before or he stepped inside was fatally wounded by a ball from White's gun. The entire police can only be done by your votes in connection with the votes of your fellow-countrymen everywhere, let it be recorded by the party augmented by the presence of a large number of armed citizens, went to arrest the Whites. The son had taken no part in the last shooting, but had fired at both Adams and Jackson. The Whites home was market reports that are daily published surrounded and demands for surrender in the newspapers of the county. made. The reply was a shot which wounded a boy in the crowd. Then six officers went to the house and broke down the doors. As they sprang in White fired, wounding Sergeant Pickett, at the same time White was shot. He attempted to break through, but half a dozen bullets were put through his body. Henry, the son, escaped to the Alabama side of the river. A posse with bloodhounds is on his trail.

This was the epitaph: 'Thankful to Almighty God for the past blessings of life, health, prolonged to old age, a competence, a not inactive mind, a loved and loving wife, kind friends and excellent children. McKinley Tells Why They Are Interested in the Country's Welfare. The Cleveland Street-rallway Employes' McKinley Club was presented to the Republican nominee this morning. In responding to the greeting of the club's spokesman Mr. McKinley said:

I take it that you are interested in these questions being settled on the side of right and justice, and to the onor and glory of the Republic. of the things that we will settle is that this is a government under law and by law, and that this is a government of non-or and integrity; that it would spurn to of its obligations, public private; that it would spurn to establish currency that was not good and sound in commercial transactions in every of the world. Then we will settle another thing this year-and that is whether we are to continue the policy of tariff reform whether we will discontinue it. We have ad nearly four years of experience under We have had nearly four years of unpredisorder, the hardest times within the rec ollection of the men who stand about m to be reversed. I think we ought to go back to the protective policy, under which life; aye, for much longer than a third of ginning of the government, we were living under it the people have always been prosperous and the homes of the American citizens happy; and the treasury of the United States, instead of being deficient, meet all of its daily expenses.
"You are interested in the prosperity of the country. You cannot be protected by tariff personally and directly, but you get our protection in the general prosperity of he country. The more business that is the city of Cleveland, in and the shops, the factories and the stores and on the lakes, the more business you the railroads have to do the more emloyes they must have, and the more busbe. You have it in your power this year by your ballots to help restore that policy. I am glad to meet and greet you here I am glad to know that this large body of street-railroad employes is enrolled in the ranks of the Republican party for a sound government, a sound dollar and a sound protective tariff. I thank you and bid you good afternoon. Three rousing cheers were then given for 'the next President of the United States."
